anthonycossins@gmail.com

Employment

April 2014 - Present

Front-end Developer
Signal Noise

- ✓ Worked on single page web applications. Used Backbone, Laravel, Node.js and React.
- ✓ Structured responsive and cross-browser UI using SCSS (BEM) and CSS Modules.
- ✓ Developed, maintained and deployed server instances on AWS. Worked on high profile conferences that took place globally.

2014 December - 2015 March

Freelance Developer

- ✓ Developed WordPress with support for PayPal and Stripe payment system.

2013 June - 2014 April

Front-end Developer
Signal Noise

- ✓ Developed the Signal Noise website using WordPress. Helped improve SEO which helped the site appear higher in relevant searches.
- ✓ Programmed and animated wide range of interactive visualisations using HTML5 canvas and SVG.
- ✓ Assisted in company exhibitions by developing and maintaining the event websites.

Technical Skills

Experience

JavaScript ES6, HTML, CSS/SASS (BEM), PHP, Node.js, MySQL

Libraries and frameworks

Backbone, React, Redux, jQuery, Laravel, Express, Mocha

Tool

Git, Webpack, NPM, JIRA, Sketch, Photoshop, Illustrator

Content management
